Gregory Gay   **Hiring Manager or Admissions Officer**
Program Manager, Docent

Nishchya Arya, letter of support

My name is Gregory Gay, and I am a Docent in Software Engineering at Chalmers and University of Gothenburg, as well as the program manager for M.Sc. in Software Engineering and Technology at Chalmers and M.Sc. in Software Engineering and Management at University of Gothenburg.

I am writing this letter in support of Nishchya, an aspiring applicant for both professional roles and master's programs in software engineering. Nishchya is currently an active student in the B.Sc. program in Software Engineering and Management at University of Gothenburg. I have known Nishchya since last year, when he was a student in my course on Software Quality and Testing.

In the Software Quality and Testing course, Nishchya received a 4 (out of 5), with a 5/5 on the written assignments portion of the course. I was impressed by the depth and critical thinking apparent in his submitted solutions. Nishchya has also received a grade of 5 in other courses relevant to his aspirations, such as Development of Embedded and Real-Time Systems. He will be conducting a thesis in the coming semester with an industrial partner, a company that provides software testing services called TestScouts.

I highly recommend granting Nishchya a position in your company or M.Sc. program. Either will greatly benefit his growth as a Software Engineering professional.

Please let me know if I can offer further information,

Gregory Gay
